).

Tuesday, 3 July, included a conference within a conference, with the [Christian Action Network Conference](#) (CAN)

overlapping as part of the BWS. With numerous ministry leaders, missionaries and pastors affiliated with the Christian Action Network participating in the BWS, the CAN Conference was integrated into the programme. The Christian Action Network now has over 40 ministries, mission organisations and church denominations affiliated. Member organisations of CAN stretch as far afield as Nigeria and Malawi, Kenya and Uganda, Zambia and Zimbabwe, Burundi and South Africa - all committed to working for Biblical Reformation and praying for Revival.

Under the conference theme of *"For Reformation and Revival"* the CAN delegates prayerfully considered

**[The Franschhoek Declaration](#)**

which was discussed and, with adaptations and additions, was unanimously adopted. The Franschhoek Declaration includes statements on the authority of Scripture, the sanctity of life, marriage, education, homosexuality, economics and ethics. The Declaration addresses, in a Biblical manner, the attacks on the family by those who are seeking to legitimise homosexual perversion as "marriage", ordain for the ministry those who are involved in un-repentant immoral lifestyles, and the state's interference in the parental responsibility of disciplining their children. The farm confiscations and land invasions of Zimbabwe, and threats to the farming community in South Africa were also addressed. Christian education and other critical issues confronting the church today

were also dealt with. The Franschhoek Declaration can be viewed on the [www.christianaction.org.za](http://www.christianaction.org.za)

website. Printed copies of the declaration are also available from
