

### **Policy**

The FRONTLINE FELLOWSHIP is an interdenominational fellowship of Evangelical Believers, who hold to the Reformed faith and believe in the Bible as the inspired, inerrant and infallible Word of God.

The Frontline Fellowship takes a clear stand against Secular Humanism, Atheistic Communism, militant Islam and their relentless persecution of the Christian Church. The Fellowship further rejects the Roman Papacy, the World Council of Churches and the Inter-Faith Movement as anti-Christ. The Fellowship rejects both Liberation Theology and the superficial and materialistic message of the prosperity cult. We remain committed to studying, believing, obeying and proclaiming the Whole Word of God. We fear God alone for full salvation from sin by the atonement of His blood. We preach repentance and the forgiveness of sins, and the need for obedience, missionary vision, reformation and revival.

### **Principles**

Simplicity of structure, Mobility in operations, Boldness in approach and the priority of Evangelism and Discipleship amongst the unreached are to characterise the Fellowship.
