

Good day.

I trust you are doing well?

It has come to my attention that you have some concerns regarding the recent Zimbabwe Mission report.

Allow me firstly to thank you for taking the time to read through the mission report and presenting us with some feedback. We do appreciate it.

We at Frontline Fellowship are in no way anti-Israel. The Zionists which we were referring to in the Zimbabwe mission report is an African sect off the traditional Church. You may have heard of or come across the “ZCC” (Zion Christian Church), it is to these people who we are referring and were making no reference to Israel itself nor any movement that comes from Israel. The ZCC is a syncretistic religion, mixing Christianity with ancestor worship as well as much superstition to keep its followers faithful. It is a very dangerous religion which promises health and wealth to all its followers and naturally people flock to them and leave the Church in pursuit of personal gain.

I hope this has answered your question?

If you wish to learn more about the Zionist church, I suggest you look up “ZCC” or its founder “Engenas Lekganyane”. You can also look up one of the major sub-groups of the ZCC, namely the “ZCC star” or the “saint Engenas ZCC” – These groups were started by the family of the ZCC’s founder Engenas Lekganyane.

If you have any more questions, please feel free to ask.

God bless

John Clifford
